6.0 Using Search

When you need to look up information on submitted applications or existing permits, click **Search** on the left of the screen. The following screen appears:

The screenshot shows a web browser window titled "IBM WebSphere Portal - Microsoft Internet Explorer provided by MoDOT". The page header includes "State of Missouri Motor Carrier Services" and navigation links like "HOME", "APPLICATIONS", "PAYMENT", "CUSTOMER", and "REPORTS". A left sidebar contains a menu with "New", "Open last", "Recall", "Reports", "Search", "Worklist", "Vehicle Units", and "Help". An arrow points to the "Search" link. The main content area is titled "Search for Applications" and contains instructions: "Check the status of submitted applications, view data on existing permits, or copy existing permits then submit them as a new application for processing." It lists two search methods: 1. Search by number, with a field for "Enter an application or permit number and open as a template:" and buttons for "Copy New" and "Search"; 2. Search by permit type, application status and dates, or permittee name, or power unit license, or trailer unit license, or by the USDOT Number. This section includes dropdowns for "Permit Type:" (set to "SINGLE TRIP") and "Status:" (set to "ALL"), a date range for "Status dates (mm/dd/yyyy):" (03/20/2006 to 04/04/2006), and text input fields for "Permittee Name:", "MCS Account No:" (19747), "Power Unit License:", "Trailer License:", and "USDOT:". At the bottom, there are radio buttons for "10 records per page" (selected) and "All records in one page", followed by a "Search" button.

As you can see, you can search for your information in any of several ways:

1. Search by Number, by Application/Permit Number

- Click the “Search” button to search by application or permit number. You will only bring up information on the specific item you seek.
- Click the “Copy New” button to open the searched item as a template.

2. Search by Permit Type or Application Details

This powerful search process allows you to choose multiple criteria in order to bring up a range of applications or permits to view.

Choose at least one of the following criteria to search on:

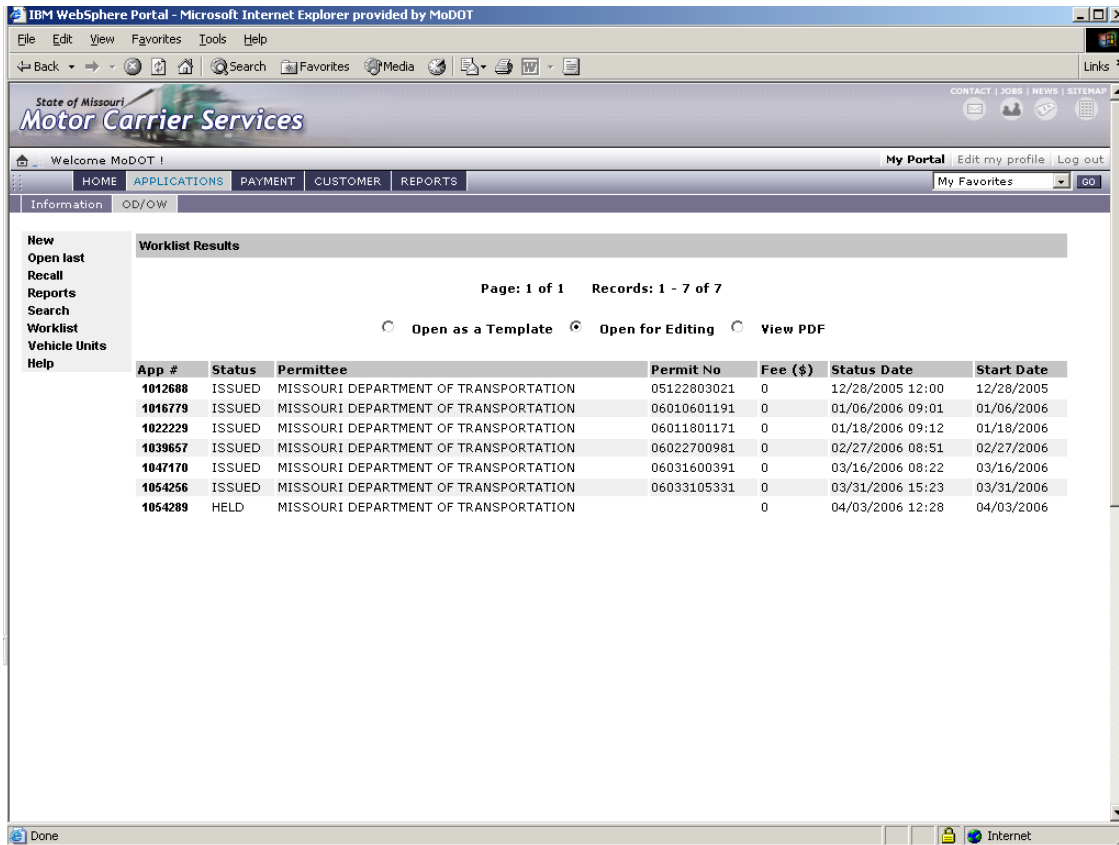

- **Permit Type:** Single Trip, Blanket, Superload, Pre-Issue, Multi-State, 30-Day Blanket, House Move, or Multi Stop.
 - Default is Single Trip.
- **Status:** From ALL to PREISSUED.
- **Dates:** This is a range for the dates that the permits start. Enter the date in the form mm/dd/yyyy.
- **Permittee Name:** This is the name the permit was issued to. (Note: Your search will only produce results for permits in your account.)
- **MCS Account No.** This field already has your account number in it and cannot be changed.
- **Power Unit License**
- **Trailer Unit License**
- **USDOT**

You can also choose to display a set number of records per page or all records on the same page.

- The “Search” button only works for this search process, and will not search for and open a permit or application that had been sought by number.

6.0 Using Search – continued

The Application Search Results screen comes up:

Open an application by clicking on the Application number for the desired record. Note that your choice of radio buttons at the top of the screen will determine how the record is opened. (See the Main Screen section for a discussion of what the radio buttons do.)

1. **Open as a Template.** Selecting this option allows you to create a new record with the same information in it as the selected record. This function is useful to speed up the processing of multiple permits from the same Carrier. The new record will open, allowing you to change or add pertinent information (usually vehicle or load) without having to retype the Carrier's basic information.
2. **Open for Editing.** Selecting this option allows you to open an **unprocessed** application to edit it.
3. **View PDF.** Selecting this option allows you to open an issued application or permit to view or print it, but not to edit it.

To browse through the records if there is more than one page of them:

- o Click "Next Page" to see the next page of records.
- o Click "Previous Page" to see the previous page of records.
- o Click "First Page" to go to the first page of records.
- o Click "Last Page" to go to the very last page of records.
- o Click the page number beneath the buttons to go directly to a particular page.

7.0 Vehicle Units

When you click on **Vehicle Units**, the following screen appears. From this screen you can search for, add, edit, and delete vehicle unit information associated with your fleet. The data you add here will populate the Vehicles tab-screen when you enter a saved vehicle unit's license number in a permit application. (**Note:** This functionality does not work for Permit Service users. Adding a vehicle unit will simply add a vehicle to the Permit Service fleet which is non-existent. To add a vehicle, use the Entering New Application).

The screenshot shows a web browser window titled "IBM WebSphere Portal - Microsoft Internet Explorer provided by MoDOT". The page is for "State of Missouri Motor Carrier Services". It features a navigation bar with links: HOME, APPLICATIONS, PAYMENT, CUSTOMER, and REPORTS. Below the navigation bar, there is a sidebar with a menu: New, Open last, Recall, Reports, Search, Worklist, Vehicle Units, and Help. The main content area is titled "ODOW Vehicle Units" and contains a search form with fields for "MCS ID:" (containing "19747") and "License:". There are "Search" and "Add New" buttons at the bottom of the form.

To add a new vehicle unit, click “Add New.”

The screenshot shows the "Add a new ODOW Vehicle Unit" form. It includes the same navigation and sidebar as the previous screen. The form fields are: "Carrier MCS ID:" (containing "19747"), "License:" (empty), "State:" (a drop-down menu with "MO" selected), "Type:" (a drop-down menu), "Make:" (a drop-down menu), "Model Year:" (empty), and "VIN:" (empty). An "Add" button is located at the bottom of the form.

The Carrier MCS ID is already entered for you and cannot be changed. The information you need to enter is:

- **License number**
- **State** (drop-down menu): The State field defaults to MO. Be sure to choose the correct state that the vehicle is licensed in.
- **Type:** Select from the drop-down menu to the right of the field.
- **Make:** You can choose a vehicle make from the drop-down menu to the right of the field, or enter one yourself in the empty text field next to “Make.”
- **Model Year:** Enter a 4-digit year (e.g., 1999, 2005).
- **VIN**

When you have entered all information, click “Add.” A message will appear at the top of the screen that says the record has been added. To view the results, perform a new search.

7.0 Vehicle Units - continued

You can search by license number or click on search to display all your vehicles that have been saved. The MCS ID defaults to your Account number.
